More About Our Schools

My granddady says in '69
They taught 'em more in shorter time

On Normal grads. They had real men
Who taught a school with either fist
And swung em hard and never missed.
No cash was spent to "transpotate"

The kids in 1868.
Shanks' mare was all the transportation
Allowed, to get an education.
No teacher asked a raise in pay.
Yes, schools were good in granddad's day
Two dollars bought a cord of wood.
Yes, schools in 80 were good

TWICE PROVEN

If you suffer backache, sleepless nights, tired, dull days and distressing urinary disorders, don't experiment. Read this twice-told testimony. It's Norway evidence—doubly proven.

E. C. Libby, Sanborn St., Norway, says: "I had a great deal of backache which annoyed me to do anything. My head ached and I noticed specks floating before my eyes and my sight blurred. I used different remedies but it was left to Doan's Pills to give me lasting results. I got Doan's at Stone's Drug Store and since using them I have had no return of kidney complaint." (Statement given June 6, 1916.)

On September 3, 1920, Mr. Libby said: "I haven't had occasion to use Doan's Pills or any other kidney medicine since being cured by Doan's. My faith in this remedy is just as strong as ever."

Ford Trucks Are Bought On Performance Records

If you were to ask a hundred or a thousand—Ford truck owners why they use Ford trucks, in preference to all others, they would likely say, "Because the Ford stands up."

They know that under the endless grind of daily ser-

vice the Ford stays on the job month in and month out, with very little mechanical care, and with practically no expense for repairs or replacements.

They would emphasize the work this truck does, not its initial cost.

Ford Trucks can be bought through the Ford Weekly Purchase Plan.

ONE HUNDRED DOLLARS IN GOLD FOR ONE WORD

The greatest gain that can be made for Prohibition and its Enforcement will be when it becomes "bad form" to aid in the violation of the Prohibition Law by drinking liquor. Today, in some circles, it is not "bad form" to go to a "Cocktail" or "Wet" party—it is not "bad form" to drink or even to show that you have been drinking—on the contrary it is in the atmosphere that it is rather a smart thing to do.

The Boston Herald in an editorial headed "Alcoholic Fashions" states that before Prohibition "it had become unfashionable and rather reprehensible even in smart society to show the effects of liquor or to exhale an alcoholic breath," and then after pointing out that this is not so today, concludes: "Prohibition will work when public opinion resumes the attitude towards indulgence that it held before prohibition came."

Now it is believed the whole atmosphere about this thing can be changed—that lawless drinking can be made "bad form"—just by getting into universal use a word describing the present day drinker that will bite as does the word "seab." In a strike, men are often held in line simply by fear of that word, and during the war, men were driven into doing things by fear of being called "slacker."

To drink today liquor made or obtained illegally is to aid in violating the Constitution of the United States, it is being a "bad citizen." As the late President Harding said, "Lawless Drinking is a menace to the republic itself."

To drink today is also being a "poor sport." The rules of the game, duly adopted, prohibit it, and when one continues to live in the United States, and drink this liquor, he is violating the rules—he is not "playing the game."

And the judges of the American Bar Association have unanimously issued "A Warning to the American People" against those who "for the gratification of their appetites, disobey and scoff at this law."

Now what is that word or coined word which expresses the idea of "bad citizen," or "lawless drinker," or "menace," or "poor sport," or "scuffer," or "whatnot," with the biting power of "seab" or "slacker?"

Deleovare King of the Granite Trust Co. of Quincy, Mass., offers \$100 in gold for the best suggestion. Mr. Arthur J. Davis, regional superintendent of the Anti-Saloon League of America, and Rev. E. Tallmadge Root, Secretary of the Massachusetts Federation of Churches, will act with him as judges. The \$100 gold contest closes Tuesday, January 1, 1924. You may send any number of suggestions, just address D. King, Granite Trust Company, Quincy, Mass. Send your suggestions right away.

Mr. and Mrs. Clayton Littlefield had a family reunion Thanksgiving Day when all of their children and grandchildren were home together, and it was a day that will be remembered in years to come by all the family. TWO LOVELY THOUGHTS

A blind Indiana child wrote that "Forgiveness is the perfume of the violet on the heel that crushed it."

Which beautiful definition inspired another person to say that "Gratitude may be called the perfume of the rose on the hand that caressed it."

Franklin Gilman of Kezar Falls recently tore down a chimney in his house that was built in 1778. It contained 84 bricks and was 8 ft. square at the bottom. Some of the old bricks taken from it had carved letters. One bore the date 1781.

Some had never been burned but were just as moulded from the clay and crumbled when touched.

Robert B. Thomas' Almanac for 1924, has arrived. Fifteen cents buys one at the local stores or from the N. B. News Co., 93 Arch Street, Boston, Mass.

This is Robert's 182nd venture in regulating the Solar and Luna systems for New England. He deals out six eclipses and only one partly visible on May 4th next.

Battery Noises and Leakage

In connection with the subject of constant voltage, it is important to consider external electrical leakage, which, as we have said, is likely to be present in the ordinary radio storage battery. You will recall that we cited this as one of the two principal causes of battery noises.

In addition to causing noise, this has a decided effect upon the voltage of the battery, due to the fact that, however small it may be, it goes on constantly even while the battery is not in use, so that much of the energy is wasted and the battery discharged considerably faster than it should be.

NORWAY AND VICINITY

Treasures of the Attic.
Capt. M. W. Sampson hands us a bundle of old papers. Among them is an almanac of 1821 that undoubtedly did service in the family of John Whitmarsh who at that time lived on the cross road between Noble's and Swift's Corner, in Norway.

The almanac also served as a diary in which events to be remembered were jotted down, such as:
"March 15th, sowed hay seed; March 29th, hauled a load of boards up the pond from the village." Also there were comments on the weather. "It rained March 17th, turning into snow." April 7th, "came from village up the pond in a sleigh; killed two snakes the 20th and began to plow on that date. On the 30th ice in the pond broke up." "Thunder and lightning came May 1st; sheep were washed on the 24th and finished planting corn and potatoes on the 22nd and there was frost on the 20 and 23rd." The almanac did duty as an account book among the neighbors.

On the 7th of August he "began to reap" and on the 17th "Elizabeth Crockett was born." "Killing frost Sept. 27th and four inches of snow Oct. 10th and on Nov. 7th sharp lightning and heavy thunder," is recorded.

The salary of the State officers are given. The Governor got \$1500, Chief Justice \$1800, and Justice \$1500; State Treasurer \$900 and Secretary of State \$700 with clerk hire \$2.00 per day.

In it is a receipt for the cure of cancer and we copy it: "File up old pure brass; put a spoonful in a vessel and make a plaster of the brass and nuton suet. Lay it on the part affected and observe not to remove it, till well."

A part of a copy of the Oxford Observer of Feb. 1, 1831, was among the papers. It was volume six and number 37. It was published by Wm. E. Goodnow of Norway. Not a word of home news can be found in it.

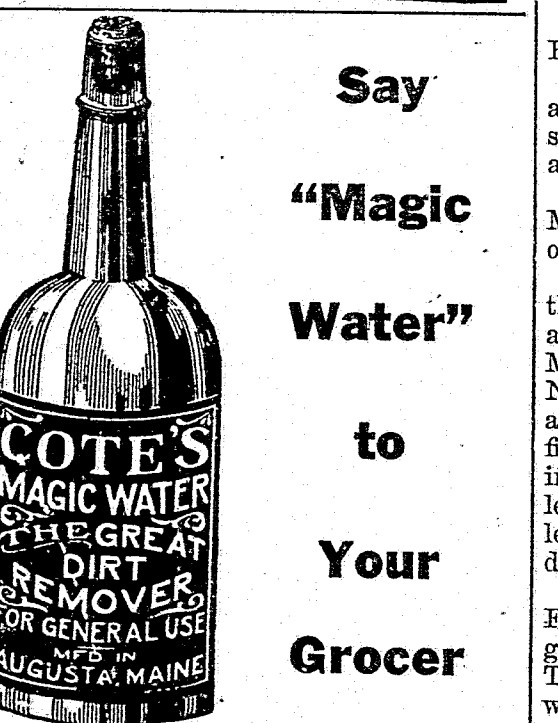

A copy of the Politician of Oct. 2, 1832, is in the collection. This is an anti-Jackson sheet and published by Wm. E. Goodnow of Norway and edited by Wm. A. Evans, who was a lawyer with office over the shop of Mr. R. F. Beal nearly opposite the Norway Hotel. The paper carried a good bit of local advertising and is savagely opposed to the re-election of Gen. Jackson for president.

Zebadee Parry at Steep Falls, Norway, does wool carding and cloth dressing and apprentices are at the Steep Falls Machine shop.

Benj. Tucker Jr. has bought Lewis Crockett's business and we presume this is the starting of the Tucker harness shop of today. Nothing was said regarding what kind of business Mr. Crockett was selling.

A long envelope bedecked with red sealing wax tells the story of \$200 being sent from New Orleans, La., to John Whitmarsh of Norway by his son Capt. W. W. Whitmarsh, June 14, 1864. This was found in the attic. It is needless to mention the money was long ago taken from the envelope.

HARDING MEMORIAL WEEK

In accordance with the plan of the Harding Memorial Association for a Memorial week, Governor Baxter has proclaimed Sunday, December 9, as Harding Memorial Week, and for the purpose of effecting a nation-wide organization, the Governor of each state has been asked to serve as Honorary Chairman and to appoint an Active Chairman who in turn will appoint a County Chairman for each county. H. H. Hastings has been asked to act as County Chairman by Charles S. McChesborn of Augusta, the Active State Chairman, and has asked several men living in the larger centers of the county to serve as Community Chairmen for their immediate communities, as the organization embraces the whole county, viz: Ellery C. Park, Esq., of Bethel, George L. Wadlin of Canton, John S. Harlow, Esq., of Dixfield, Hugh Hastings, Esq., of Fryeburg, A. E. Davis of Mexico, Donald L. Partridge, Esq., of Norway, Walter L. It may be interesting to poultry keepers who are specially fond of the Barred Plymouth Rock breed, to know what one gold piece, hen owned by Mrs. Cora Thurlow has accomplished during the past season. This noted hen came out with five chickens a few days ago, being her third flock since last spring; her first hatch she had 17 chickens, her second, 10 and her last one 5. She is doing her best to encourage poultry raising. Can anyone tell a better story?

A light snowfall, according to Warden Flint, would mean that many more would be shot.

A SEVERE WINTER?

The U. S. Weather Bureau warns us to pay no heed to predictions of "the coldest and snowiest winter in history." That the experts cannot foretell the weather for long periods in the future is admitted, but they hasten to emphasize that no man can. We wish some gifted student of human nature would explain to us why the public remembers the comparatively few cases when the official weather forecasts fail to come true and forgets the numerous instances when the predictions of almanacs and amateur weather prophets are unfulfilled. It is extremely improbable that the coming winter will be so severe as the last, but it is not impossible, for even lightning has been known to strike twice in the same place.

Catarthal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surface of the system, thus reducing inflammation and restoring normal conditions.

AUTO-INTOXICATION

Generally Due to Constipation and Corrected by "Fruit-a-tives" the Famous Fruit Medicine

Alburgh, Vermont
"For three years, I was troubled with Constipation; would go for days without a movement; depended upon purgatives. My condition was growing worse, my whole system being affected by the absorption of impurities."

Various remedies and treatments proved worthless. At last, it was my good fortune to get hold of "Fruit-a-tives". They completely relieved me of chronic Constipation and removed all distressing symptoms due to this complaint. Send anyone to me who doubts the value of "Fruit-a-tives".

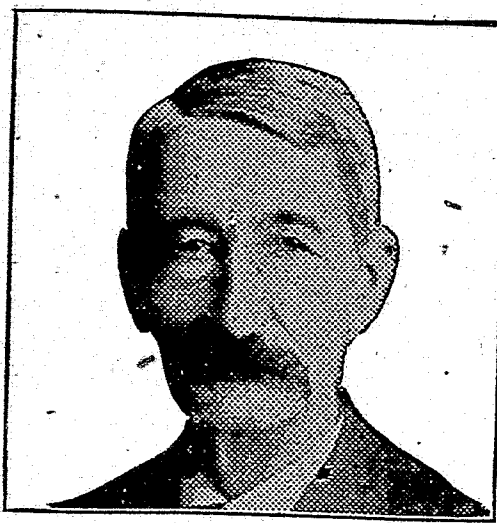

N. K. MARTIN

Auto-intoxication is blood poisoning, due to Constipation or non-action of the bowels. Impurities, which should leave the body every day, remain in the system for three or four days at a time. This waste matter poisons the blood, and the poisoned blood in turn poisons every organ of the body. According to leading authorities, this is responsible for hardening of the arteries, high blood pressure, severe headaches, pain in the back, kidney trouble and much of the stomach trouble caused by gas.

"Fruit-a-tives", made from fruit juices and tonics, will always correct Constipation and protect you against Auto-intoxication. 50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent by

EAST WATERFORD

Leroy M. Sanderson

Leroy Marshall Sanderson, whose sudden death by his own hand was recently noted in this paper, had been a resident of this place practically all his life. Born in Sweden, March 24, 1849, the only son of Marshall and Angeline (McWain) Sanderson, he came when only a small child to McWain Hill with his parents when they built their home on his mother's share of the farm of David McWain, the first settler of Waterford. The Sanderson farm has thus been continually in the family since 1775 when Mr. McWain first took up his grant. For some years, Mr. Sanderson was engaged in lumbering in Gilead and vicinity in company with his brother-in-law, D. R. Hastings of Bethel. Later he sold his interests to Mr. Hastings, and has since devoted his interests to the farm. Of a quiet and retiring disposition, he seldom went from home, but found his chief recreation in reading; and when this source of entertainment was denied him because of rapidly failing eyesight, and physical activity became impossible through bodily ills, he became despondent and the strain was more than he could bear.

In June 1874 he married Florence Viola Shaw of South Waterford, who survives him, together with four children: Burton W., who lives at home; Arthur L., a leading farmer of Harrison; Helen M., one of the owners of Camp McWain and at present in the service of the New England Division of the American Red Cross; and Elsie V., wife of Frank E. Wood of East Baldwin. Another daughter, Josephine, died in 1907 during her senior year at Bates College. There are four grandchildren, Robert Leroy Sanderson and Lester, Leroy and Florence Wood; also one nephew, Marshall R. Hastings, of Bethel. He became a member of Mt. Zion Lodge, April 4, 1917. The funeral services were held Friday, November 23, conducted by Rev. Towns send. Burial was in Elm Vale Cemetery at South Waterford. The bearers were, C. H. Pride, G. L. Hilton, R. E. Pinkham and Richard Jacobson. The funeral was largely attended by sorrowing friends and neighbors and members of Mt. Zion Lodge, F. and A. M., of which he had been a member for 52 years. Among those from out of town were Miss Rachael Metcalf, Supt. of the C. M. G. Hospital, Lewiston, and Miss Angie Starbird also of Lewiston.

Mrs. Bertha A. Dyer of Auburn was the guest of her aunt and uncle, Mr. and Mrs. W. V. Kneeland, from Friday till Monday, Nov. 23-26. While here she attended Keoka Chapter O. E. S. Mr. and Mrs. W. V. Kneeland recently enjoyed a pleasant call from his sister, Mrs. Henrietta Whitcomb, and niece, Mrs. George L. Kimball, Leona Kimball and Linwood Flint, all of North Waterford. Changes in Teaching Force
There have been several changes in the teaching staff in the Paris schools. In the South Paris village schools it has been necessary to form a new class of the 7th and 8th pupils. This class has been put into the high school under the direction of Mrs. Rachel C. Brown of Norway. This arrangement reduces the eighth grade room from forty-six to thirty pupils and the seventh grade from forty-one to thirty pupils.

Miss Margaret Davis, who has been teaching at North Paris Grammar has resigned and her place is to be taken by Miss Ella M. Blaisdell of Portland. Miss Blaisdell is a graduate of the Gorham Normal School and comes to Paris very highly recommended.

Miss E. Beatrice Smith, teacher of the North Paris Primary, has been obliged by conditions at home to resign. Miss Smith is a very efficient and painstaking teacher and she has spared neither time nor effort to build up the school at North Paris. Her place is to be taken by Miss Florence Mace, who has been working in the office of the Superintendent and doing a substitute work. Miss Margaret Davis will take Miss Mace's place in the office. This change of teachers should give North Paris a strong, energetic teaching staff and the school officials feel fortunate in being able to replace two teachers at this time of year.
